## HOTEL & RESORT FOR FELINES

**-- SUMMER WITH A SPLASH OF CATS! --**

---

"Dogs own space and cats own time."

- Nicola Griffith

### **A purr back at July & August!**

There is so much excitement in the air these days! We had the opportunity to host so many amazing kitties - a few whose cat parents even work at Club Cat!

People sometimes ask us, "What is it like working at Club Cat?" For those of us blessed with working with these magical creatures, it's a very personal question.

Here's what some of the current Club Cat team says:

"I always tell people it's super fun and relaxing, I get to hang out with cats all day! It's nice to be a person that people trust with their kitties, and I love meeting all the different cats." - Dorothy

"Working at Club Cat is fun, orderly, worthwhile, not overly simple but also not complex, and definitely furry." - Seth

"People think we just play with cats all day, but there's a lot of work to get done first, THEN we can play with the kitties! But everyday I smile, and everyday I laugh, and some days I even cry (when we have to say goodbye)." - Danielle

As Club Cat expands its pawprint through franchising (see our recent blog post on the exciting news!), we look forward to spreading the joy of working with cats to others!

## --- CLUB CAT BOOK CLUB ---

What do two cats, a mermaid and a moon have in common?

Turns out, a lot!

*Two Cats, a Mermaid and the Disappearing Moon*, written by Laguna Beach resident, cat enthusiast, blogger, and Club Cat friend, Pamela Knudsen, is a new children's book for young readers of approximately 5 to 8 years. Pamela's obsession with the moon, cats, and canyon dwelling creatures sparked a story that takes the reader from the majestic canyons to calming coves of Laguna Beach as they go on a journey with cats, Topper and Lexington to find the full moon that mysteriously goes missing from the sky.

**Pamela with her kitty, Samantha**

Beautifully written, the book showcases the beauty, wonder and magic of nature in its animals, places and in a particular lunar phenomenon. The creatures in the story were inspired by wildlife Pamela has encountered in Laguna Beach, including barn owls that lived in the palm tree in her yard and still come to visit. Mermaids have intrigued Pamela since childhood and this story makes one wonder what magical creatures come to life under the light of a full moon.

## --- CatCon 2023 Wrap --

### Club Cat exhibited at CatCon 2023 at the Pasadena Convention Center in August!

If you didn't get a chance to drive north for the afternoon to CatCon, that's OK! Almost every other cat parent did.

We had a great time talking with cat lovers, running into existing customers, and meeting future customers. And visiting all the booths with creative, funny cat paraphernalia. 🐱

CATgrats to Ash visiting from Pennsylvania for guessing only one off - 1137 - from the correct amount of goldfish in the bowl - 1138!

Camy, who first stayed with us in May of 2019, just two months after we opened, and stayed with us more than a dozen times since, crossed Rainbow Bridge 🌈 on July 28, 2022.

with as more than a dozen times since, crossed rainbow bridge 🌈 on July 28, 2023.

Camy had one of the sweetest meows and even sweeter cuddles. We will miss hosting this extra special bundle of fur and will hold all of our memories of Camy in our hearts forever.

P.S. Camy's life will be showcased in an upcoming September Club Cat blog post 💔
